

Gates

The Bekafor Classic gates are available in single and double version with Bekafor Classic infill for perfect combination with Bekafor Classic panel fences.

Bekafor® Classic

BENEFITS

- Frame, Bekafor Classic infill and the post system are of an extremely rigid construction.
- The limited accessories permit a quick installation.
- Perfect fit with Bekafor Classic Panels.

Frame

Frame out of square tube 40 x 40 mm, with welded Bekafor Classic infill.

Posts

Bekaclip posts out of welded tube with cap. Bekafor Classic panels can be fixed directly to the gate posts by means of Bekafor collets, diameter 60 mm, delivered with the gates.

Accessories

Bekafor Classic gates have an integrated cylinder lock and are provided with adjustable hinges for a perfect adjustment. The double gates are provided with a ground bolt in a ground bolt guider and a ground plate. Lock slot and handle are out of plastic.

Coating technique

Double organic coating: KTL and polyester.

Colours

Green RAL 6005, anthracite & some single types also in white RAL 9010
