

Gates

The Bekafor Prestige gates are available in single types. Their infill is in perfect harmony with the decorative Bekafor Prestige panel fences.

Bekafor® Prestige

BENEFITS

- The design is totally in line with the Bekafor Prestige panels.
- The panels can be fixed directly to the gate posts.
- Frame, infill and post system result in a rigid construction.
- The limited accessories permit a quick installation.

Frame

Square tube 40 x 40 mm, right and left of the infill. The infill has exactly the same design of the Bekafor Prestige panels, but provides extra strength to the gate wing by its higher wire diameters.

Posts

Bekaclip posts out of welded tube with cap.

Bekafor Prestige panels can be fixed directly to the gate posts by means of Bekafor collets, diameter 60 mm, delivered with the gates.

Accessories

Bekafor Prestige gates have an integrated cylinder lock and are provided with adjustable hinges for a perfect adjustment.

Lock slot and handle are out of plastic.

Coating technique

Galvanised and polyester coated.

Colours

Green RAL 6005 - Anthracite

ASSORTMENT BEKAFOR PRESTIGE SINGLE SWING GATES

Width mm	Height * mm	Wing width mm	Distance between posts (center/center) mm	Overall width mm
1000	1100	940	1030	1150
1000	1300	940	1030	1150
