

Welded mesh

The Pantanet SYSTEM is a total system, composed of welded galvanised and plastic coated fence on rolls and adapted posts. Ideal for private gardens and parks.

Pantanet®

Benefits

Aesthetic and discrete

High longevity

The wire is galvanised, resistance welded and plastic coated with maximum adhesion. The Bekaclip posts are galvanised inside and outside, passivated and plastic coated, and supplied complete with plastic top caps.

Rapid and fault-free installation

Bekaclip posts with fixing strips guarantee a quick professional installation with an optimal tensioned mesh. A minimum of equipment is needed. Two specific posts assortments are available for do-it-yourself installation.

Complete system

Pantanet System is a complete system with a wide range of roll heights, Bekaclip posts and a wide assortment of swing and sliding gates.

Applications

Private gardens

Parks

Schools

Mesh

Galvanised mesh, manufactured from galvanised wire, resistance welded and then plastic coated. The horizontal wires show a crimp at every mesh. At 25,4 mm from the top and at the bottom, the mesh is reinforced with a second selvedge wire (except for Pantanet Light).

Coating

The rolls are made out of galvanised wires. A pre-treatment process guarantees a perfect PVC coating adhesion to the product surface.

Gates

The Pantanet system is totally finished and safely equipped with high tech gates type Fortinet or Robusta: single and double gates, swing and sliding gates.

Colours

Fence: green 6073

Posts: green RAL 6005

Professional installation

Bekaclip Posts

The straining posts and intermediate posts are equipped with a fixing flange and have a round circular outside profile and are supplied with plastic top caps. The fixing clips are of stainless steel.

Welded Tubular Posts

In and outside galvanised with a min. layer thickness of 275 g/m² (2 sides combined) following Euronorm 10326. Galvanised and plastic coated with polyester with a min. layer thickness of 60 micron.

Do-it-yourself installation

Bekaclip-P posts

Round profile posts, in coloured PVC, reinforced with oil tempered high carbon steel wire.

With mesh fixing strip and cap with Betafence logo.

Bekarond-P posts

Round posts, in coloured PVC, reinforced with oil tempered high carbon steel wire. With 1 wire holder integrated in a cap with Betafence logo.
